

COVID-19: Getting the facts straight

Stay up-to-date with the latest information on COVID-19.

We are living in a period where information is changing daily and it is difficult to keep up to speed with what is unfolding. Each day there are new rules, more numbers and shifts in health views.

At MetLife 360Health we don't want to reinvent the wheel and we know that there is a vast amount of information online, in the community and from well respected sources.

So to help you get the facts straight, we are providing you with the latest list of resources to power your knowledge.

In this fact sheet we provide the best resources for the numbers and facts from the Government, the World Health Organisation (WHO), the John Hopkins Centre for Systems, Science and Engineering (CSSE) and the Centre for Disease Control and Prevention (CDC). These resources are updated regularly so it is worth checking back or saving these links to your favourites.

Resource	Description	Link
